

Remote Student Framework
for Securing Exams

HIGHLIGHTS

RSMF Project partners has finished the first project results which was the Accredited framework for monitoring the security of remote examinations for students and for teachers.

The main points of it are:

- Technical aspects
- The room/environment that the exam will take place
- Confirmation of identity
- Examination platform
- Rules applicable during the remote exam
- Exam checklist

The framework was organized in three parts:

- 1.A framework for monitoring the security of remote examinations-
BEFORE THE EXAM
- 2.A framework for monitoring the security of remote examinations-
DURING THE EXAM
- 3.A framework for monitoring the security of remote examinations-
AFTER THE EXAM

SECOND NEWSLETTER

SECOND TRANSNATIONAL PARTNERS MEETING

The 2nd Transnational Partners Meeting took place on the 30th-1st of July in Neapolis University Pafos.

The meeting went along with a short introduction to the project's scope and activities. After questions, answers and discussion, results 1,2 & 3 were shared, followed. Then, dissemination and communication activities took place, followed by quality assurance and project evaluation.

The staying in Paphos was enriched with traditional lunch and dinner, coffee, walking around the sea and having great discussion between us, sharing knowledge and experiences. Leaving Paphos with the best experiences thanks to Neapolis team and looking forward for they next meeting!

UPCOMING ACTIVITIES

The RSMF project partners from Cyprus, Greece, Italy and Poland are preparing to meet again in Paphos, Cyprus for the C1 training event about the Digital Transformation in Higher Education and for their next meeting in University of Piraeus, Athens; Greece.
